"RE -The Council will also discuss reducing the meeting frequency of several volunteer advisory committees, including Arts & Culture, DEI, and Environmental, from monthly to quarterly, as well as narrowing the scope of their work."

Hello All,

As a resident and frequent attendee at the Environmental Committee meetings, **I am completely opposed to changing the frequency of the monthly meetings from monthly to quarterly.**

These meetings give every one of us a chance to speak, receive information and possibly make a change in our small world of EL SEGUNDO.

It is through attending meetings at the Environmental Committee that our not for profit El Segundo Blue Butterfly Conservancy was borne .

It is through the Arts and Culture Committee our ESHS students presented their book idea ("El Segundo's Little Secret...What Happened to the Blues?)

and were given a grant for its publication.

It was by attending monthly meetings we were able to continue the momentum and excitement to move ahead with our goals.

Sincerely,

Barbara Boland

El Segundo Blue Butterfly Conservancy, president
