**Subject:** DEI committee - public comment

Hello,

My husband and I chose to live in El Segundo because of its welcoming atmosphere and family-friendly orientation. Since moving to El Segundo in 2021, I have been happy to learn of the council's DEI committee. DEI initiatives are essential because we all learn from each other. Our core values can align even if we are different.

I heard about this committee from my friend John Pickhaver, who would be an excellent committee member and is available as a resource.

In appointing a new person to the committee, I hope the city will select a person with a strong sense of diversity and compassion for all.

Thank you!

Brett Goodwin
